Map and flag from Wikipedia.org

## INTRODUCTION

.The history of the argentine manufacturers of .22s is not well known in the U.S.A. This country has not been a major exporter of ammunition but does seem to have a good history of producing for their own use. It is hoped that someone will help fill in the lack of knowledge presently available to this catalog.

**CARTUCHERIE ORBEA ARGENTINA S.A.** This is the forerunner of the Orbea Argentina S.A.I.C. Production dates are not known at this time, but was probably in the 1950s and 1960s. It is assumed they produced .22s, however the only catalog available only shows 6 m/m Flobert loads. Products sold under the Industria Argentina name.

**ORBEA ARGENTINA S.A.I.C.** This is the only present day producer of .22s in Argentina today. It seems this name was the result of a name change from Cartoucherie Orbea Argentina S.A. in the 1970s, however exact dates are not known at this time. .22s sold under the Industria Argentina name.

**S.A.I.C. VDA. De JUAN SPREAFICO.** Almost nothing is known about this company at this time. one catalog is available which appears to from the 1950s. It lists 6 m/m Floberts, but not .22s. It is assumed that they used the raised "S.A.S." h/s. Only one box available for cataloging at this time.

**SCORZATO HERNABOSS & CIA LTD.** Successor to Scorzato Pariette and seem to have produced .22s from approximately 1926 to the 1940s. Seems to have been merged into Cartoucherie Orbea Argentina S.A.

**SCORZATO PARIETTE.** It is not known when this company started producing .22s, but in 1926, their name was changed to Scorzato Hermanos & CIA Ltd. Some of the boxes produced under the Industria Argentina name show this "SP" h/s. No boxes available at this time.

Other company may have produced and/or sold .22s in Argentina, but data not available at this time.

These boxes are reorganized from  
Tony Dunn's original catalog.

**They do not use the original  
Dunn ID numbers**
