Map and flag from Wikipedia.org

FRANCE

CONTRIBUTORS

.France has been one of the major producers of the world's .22s. For some reason France was also a major producer of 6 m/m Flobert cartridges. Perhaps indoor shooting enjoyed a larger degree of use than in the U.S.A. Again, we have a history of mergers which today means fewer manufacturers.

THANKS

Special thanks to the following collectors for helping me with this project by supplying me with box images and sharing their knowledge. Presented in alphabetical order.

FRANCE

MANUFACTURERS

BROWNING. made in France under license to Fabrique Nationale Herstal. These cartridges were manufactured for Browning International S.A. by Nouvelle Cartoucherie de Survilliers. Which is the new name for the new name of Cartoucherie Francaise.

CARTOUCHERIE FRANCAISE Started producing .22s close to their 1903 startup date. They produced a large offering of 6 m/m and .22 issues up until their merger into N.C.S. in 1980. C.F. was very active in producing target loadings.

CHEDDITE. This company started selling 6 m/m Flobert and .22s in the early 1980s. Other information is not known at this time.

DÉCATHLON. Décathlon is a chain of sports and outdoor life stores that started in 1997 in Ille, France ,but since 1999 is headquartered in London. Decathlon sells all their ammunitions around the world under the trade names of Solognac, Geologic, and Arthemis. Originally Decathlon also sold weapons but the current regulations does not allow it any more, only cartridges are now sold in stores..

De SENIX PROTECTION. A special loading producer using other manufacturer's loads and modifying them to form A.P. bullet. These items were introduced in the early 1980s.

Eley. Imported from England. Manufactured by IMI

FABRIQUÉES PAR E. GAUPILLAT: Started by Francois Andre Gaupillat in 1835 and was eventual bought out by Gevelot.

MARCEL GAUPILLAT. This company produced 6 m/m Flobert and .22s prior to WW II, but does not seem to have produced after the war. Most of their boxes are rare today. See Gevelot listing.

GEVELOT. Gevelot was founded in 1820. It was combined with Gaupillat to form Gevelot and Gaupillat. In 1894 the name was changed again to Societe Francaise des Munitions. It was some time after this date that Gevelot .22s and 6 m/m appeared on the market. The Gevelot name was used up until 1980 when Gevelot became part of N.C.S.

KYNOCK LTD. of PARIS. Nothing is known about this listing. Only one can of cartridges is known at this time.

MANUFACTURE GENERALE DE MUNITIONS. This company produced 6 m/m Floberts and .22s sometime after the second war. They do not seem to have produced after the 1950s.

FRANCE

MANUFACTURERS

MANUFRANCE was the trade name of *Manufacture Francaise d'Armes et Cycles de St.Etienne*, a French mail order company. This was a private label seller. While they were still in business, they sold .22s from the late 1800s until the late 1970s. The catalogs they produced are works of art. They were bought by Tavitian Jacques in 1988.

LA NOUVELLE CARTOUCHERIE DE SURVILLIERS. N.C.S. was formed by the merger of Cartoucherie Francaise and Gevelot in 1980.

REMINGTON of U.S.A. IMPORTS. Imported into France in the 1980s, these are the standard Remington boxes with the wording in French.

REY FRERES. This manufacturer produced .22s in the late 1950s and early 1960s. No other history is known at this time.

SOCIETE FRANCAISE DES MUNITIONS. This was the parent company of the modern Gevelot and Gaupillat, which also produced .22s under their own labels. S.F.M. also produced 6 m/m Flobert and .22s issues under the S. F.M. name. They ceased .22 production with the merger of Gevelot into N.C.S. They may not have produced .22s after 1960.

SOCIETE NATIONALE DES POUDRES ET EXPLOSIFS. S.N.P.E. is a large producer of military munitions but not .22s. They had one private label box produced for them by H.C.S. in the early 1980s.

ETABLISSEMENTS SOUZY. Only one can of 6 m/m Floberts is known to exist from this company. It is not known if they were a manufacturer or a private label seller.

WINCHESTER of FRANCE. In the 1920s W.R.A. of the U.S.A. had a line of .22s produced for them in France. They printed the label in the U.S. Who produced the .22s in France is not known at this time.

Décathlon GEOLOGIC

Décathlon is a chain of sports and outdoor life stores that started in 1997 in Ille, France, but since 1999 is headquartered in London. Decathlon sells all their ammunitions around the world under the trade names of Solognac, Geologic, and Arthemis. Originally Decathlon also sold weapons but the current regulations do not allow it any more, only cartridges are now sold in stores.

GEVELOT Over-Print issues

Gevelot was founded in 1820. In 1883 it was combined with Gaupillat to form Gevelot & Gaupillat. In 1884 the name was changed to Societe Francaise des Munitions De Chasse, De Tir et de Guerre (S.F.M.). 6 m/m and .22s were produced under both the Gevelot, Gaupillat and S.F.M. brand names. It is not known when the first .22s were produced. In 1950, the name was changed again to Gevelot S.A. In 1980 Gevelot was combined into N.C.S.

A shortage of catalogs may have created some errors in all of these listings.

OVER-PRINT ISSUES

These issues are featured in the 1934 catalog. It is assumed that this style was used up till World War II. Exact production dates are not known at this time.

Gevelot / NCS—Lithograph Issues

This should have been the last issue under the Gevelot label. This issue should have been produced in the late 1970s. In 1980, Gevelot was merged into N.C.S.

There is two styles of boxes that are distinguished by the position of the end flaps. The initial series were made by Gevelot but filled by NCS. These boxes had both end flaps fastened on the box bottom and had thumb-cuts on the top. No side flaps. Boxes are bilingual.

The last series were made entirely by NCS and had one flap fastened to the top and the other fastened to the bottom. Side flaps but no thumb-cuts.

S-1 **.22 SHORT. "CS-SPECIALES".** Blue and white box with blue and black printing. Large, one-piece box with end flaps. "GG-5" h/s on a copper case. Lead bullet.

SOCIETE FRANCAISE DES MUNITIONS Military Issues

Military issues with the S.F.M. identification have only been noted with post WW II dates except for a few that are dated 1937 to 1939. These boxes are all similar with small changes to label color, ranging from light blue to white, dates and listed specifications. Most boxes are sealed so contents are unknown. Some open boxes have revealed "G-2" h/s on a copper case, with lead bullets. These will be shown listed by dates but no individual notations. There are most likely many more of these boxes that are not shown here.

SOCIETE FRANCAISE DES MUNITIONS SFM Exports

Shown is a series of labels from S.F.M. exported containers to various sellers outside of France. Since only labels are shown the contents are unknown. We have not provided descriptions for these as the images will tell all that we would know. Labels stating 100 are from 100 round tins. Labels stating 500 are from brown paper wrapped containers of 10 tins.

S.N.P.E. is a large manufacturer of military ammunition, but they seem to not have produced .22s. They have contracted with N.C.S. to produce at least these boxes for them.

Side Flap Logo

- S- **.22 SHORT. "V.O."** . Orange and green box with white, orange, green and black printing. Large, one-piece box with end flaps. No product code."2-46" h/s on a brass case. Lead bullet.

- LR-1 **.22 LONG RIFLE. "STANDARD"**. Box reads CARTRIDGES LOADED FOR SNPE. Orange and green box with white, orange, green and black printing. Large, one-piece box with end flaps. No product code."2-46" h/s on a brass case. Lead bullet. Variations noted:
(a) "Made in France" on one side

- (b) No "Made in France" on one side

- LR-2 **.22 LONG RIFLE. "SHORT DISTANCE"**. Same as LR-1 but labeled .22 LR SHORT DISTANCE. Contents unknown.
- LR-3 **.22 LONG RIFLE. "STANDARD"**. 100 rd. box of LR-1.

Les cartouches REMINGTON "HI-SPEED" Cal.22

avec les fameuses balles "golden"!

BALLES "MICRO PERFECT"
fabriquées avec du plomb sélectionné pour sa qualité supérieure. Prévues pour être au point parfaite avec les revolvers du canon.

POUDRE SANS FUMÉE
de type nouveau, donnant une puissance maximum, permettant d'obtenir uniformément une belle précision, une trajectoire tendue et une efficacité réelle à longue portée.

DOUILLE RÉSISTANTE EN LAITON
sertie uniformément pour obtenir un tir de précision sans trébuchement.

AMORÇAGE KLEANBORE
ANTI CORROSION qui fournit l'allumage dans une fraction de seconde.

POUVOIR DE PÉNÉTRATION
Remarquez comment une balle Hi Speed cal. 22 à pointe pleine traverse sept planches de 2 1/2 cm de bois. Quelle puissance de pénétration !!!

POUVOIR DE CHOC
un tir de 100 mètres explose avec le choc d'une balle à pointe creuse REMINGTON "Hi-Speed". Effet "coup de tonnerre" pour la chasse à la volaille.

CARTOUCHES CAL. 22 Vitesse moyenne
Pour la chasse à portée plus réduite, ou pour le tir à la cible lorsqu'une bonne précision est nécessaire, les cartouches REMINGTON cal. 22 vitesse moyenne sont exactement ce qu'il faut. Disponibles en 22 Court et Long Rifle. Dans toutes les munitions Remington vous trouverez l'amorçage exclusif Kleanbore, célèbre dans le monde entier, qui gardera votre canon brillant et propre. Pour un allumage instantané et pour empêcher la corrosion, tirez avec des cartouches REMINGTON Cal. 22 à amorces Kleanbore, les meilleures amies de votre carabine...

MUNITIONS CAL. 22 LONG RIFLE "MATCH"
Les nouvelles cartouches Match Cal. 22 sont d'un modèle nouveau et permettent des performances qui n'étaient pas possible auparavant avec les munitions de compétition. Elles ont une nouvelle forme de balle, un nouveau lubrifiant à base de silicone qui rend inutile un nettoyage fréquent, un nouveau mélange d'amorçage Kleanbore qui assure une plus longue durée de précision du canon et une nouvelle douille laiton aux tolérances sévères avec un bourrelet de nouveau type permettant un meilleur allumage. Les tireurs d'armes de petit calibre qui désirent ce qu'il y a de mieux peuvent faire confiance à la nouvelle carabine REMINGTON 40 X et aux munitions REMINGTON MATCH.
