MEXICO

INTRODUCTION

The Republic of Mexico, located immediately south of the U.S.A. has an area of 761,606 square miles and as of 2012, a population of 115.3 million. The capital is Mexico City. Mexico has been producing their own .22s for about 60 years. They have enjoyed a growing export business in .22s.

CARTUCHOS DEPORITVOS DE MEXICO S.A. Established in 1961, they started producing .22s in 1963. Offices and factory located at Cuernavaca, Mor. It was established with the purpose of only producing products under the Remington brand, the product line was expanded out to include the Aguila brand for sales in Mexico. The Remington brand was discontinued approximately late 1970s. The Aguila brand has continued to date. Approximately 1982, the name of the company was changed to Industrias Tecnos S.A.

INDUSTRIAS TECNOS S.A. The name of C.D.M. was changed to form Industrias Tecnos S.A. approximately 1982. Offices and factory located at Guernavaca, Mor. This company is a joint venture between a Mexican industrial group and Remington Arms Co. of the U.S.A. The company produces .22s under the Aguila brand for sales in Mexico and they have export private label .22s to at least Germany and the U.S.A. They are still in production as of 2012.

CASCADE INTERNATIONAL S.A. Established in 1959, this company is a joint venture with the Cascade Cartridge Co. of the U.S.A. They have produced .22s under the CCI and CI brands. Their offices and factory is located San Luis Potosi, S.L.P. They seem to have only sold their production in Mexico and have not exported private label boxes.

QUINTANA HERMANOS. Located in Mexico City, this is a private label seller which had their products produced by the Dominion Cartridge Co. of Canada about 1920. Only one .22 box specimen is known and must be considered rare.

DKG TRADING, INC. Imported by DKG Trading Inc. Evansville, IL.

REMINGTON. Remington boxes made under Mexican contracts.

These boxes are reorganized from
Tony Dunn's original catalog.

**They do not use the original
Dunn ID numbers**
